August 30, 2011

Mr. Todd Hood:

This letter is to confirm that all of the required ISO 9001:2008 documented procedures, work instructions and new ISO Quality Manual that describes the PCG Machine Shop, Inc. operations and Quality Management System has now been completed. You have met all of the specified elements in the latest ISO 9001:2008 Specification.

Therefore, after a thorough review and final approval of your new procedures and ISO Quality Manual, I now consider the PCG Machine Shop, Inc, an **ISO 9001:2008 Compliant Company**. You have a "State of the Art" modern machine shop operation and you and your employees are dedicated to providing your customers with the highest quality precision machining service that meet or exceed your Customer's expectations. It has been my pleasure to meet and work with you and I know your customers will continue to benefit from the excellent work you perform going forward.

Best Regards,

Mr. Robert LaShay,  
ISO Quality System Lead Assessor,  
ISO Consultant/Management Rep. &  
Former Director of Corporate Quality
